

Rembrandt

Polymer Stain

Rembrandt floors are guided by...

...Imagination

Why, Rembrandt?

Polymer Stain

Rembrandt, a unique eco-friendly polymer, allows the designer to infuse concrete with a palette of artful colors.

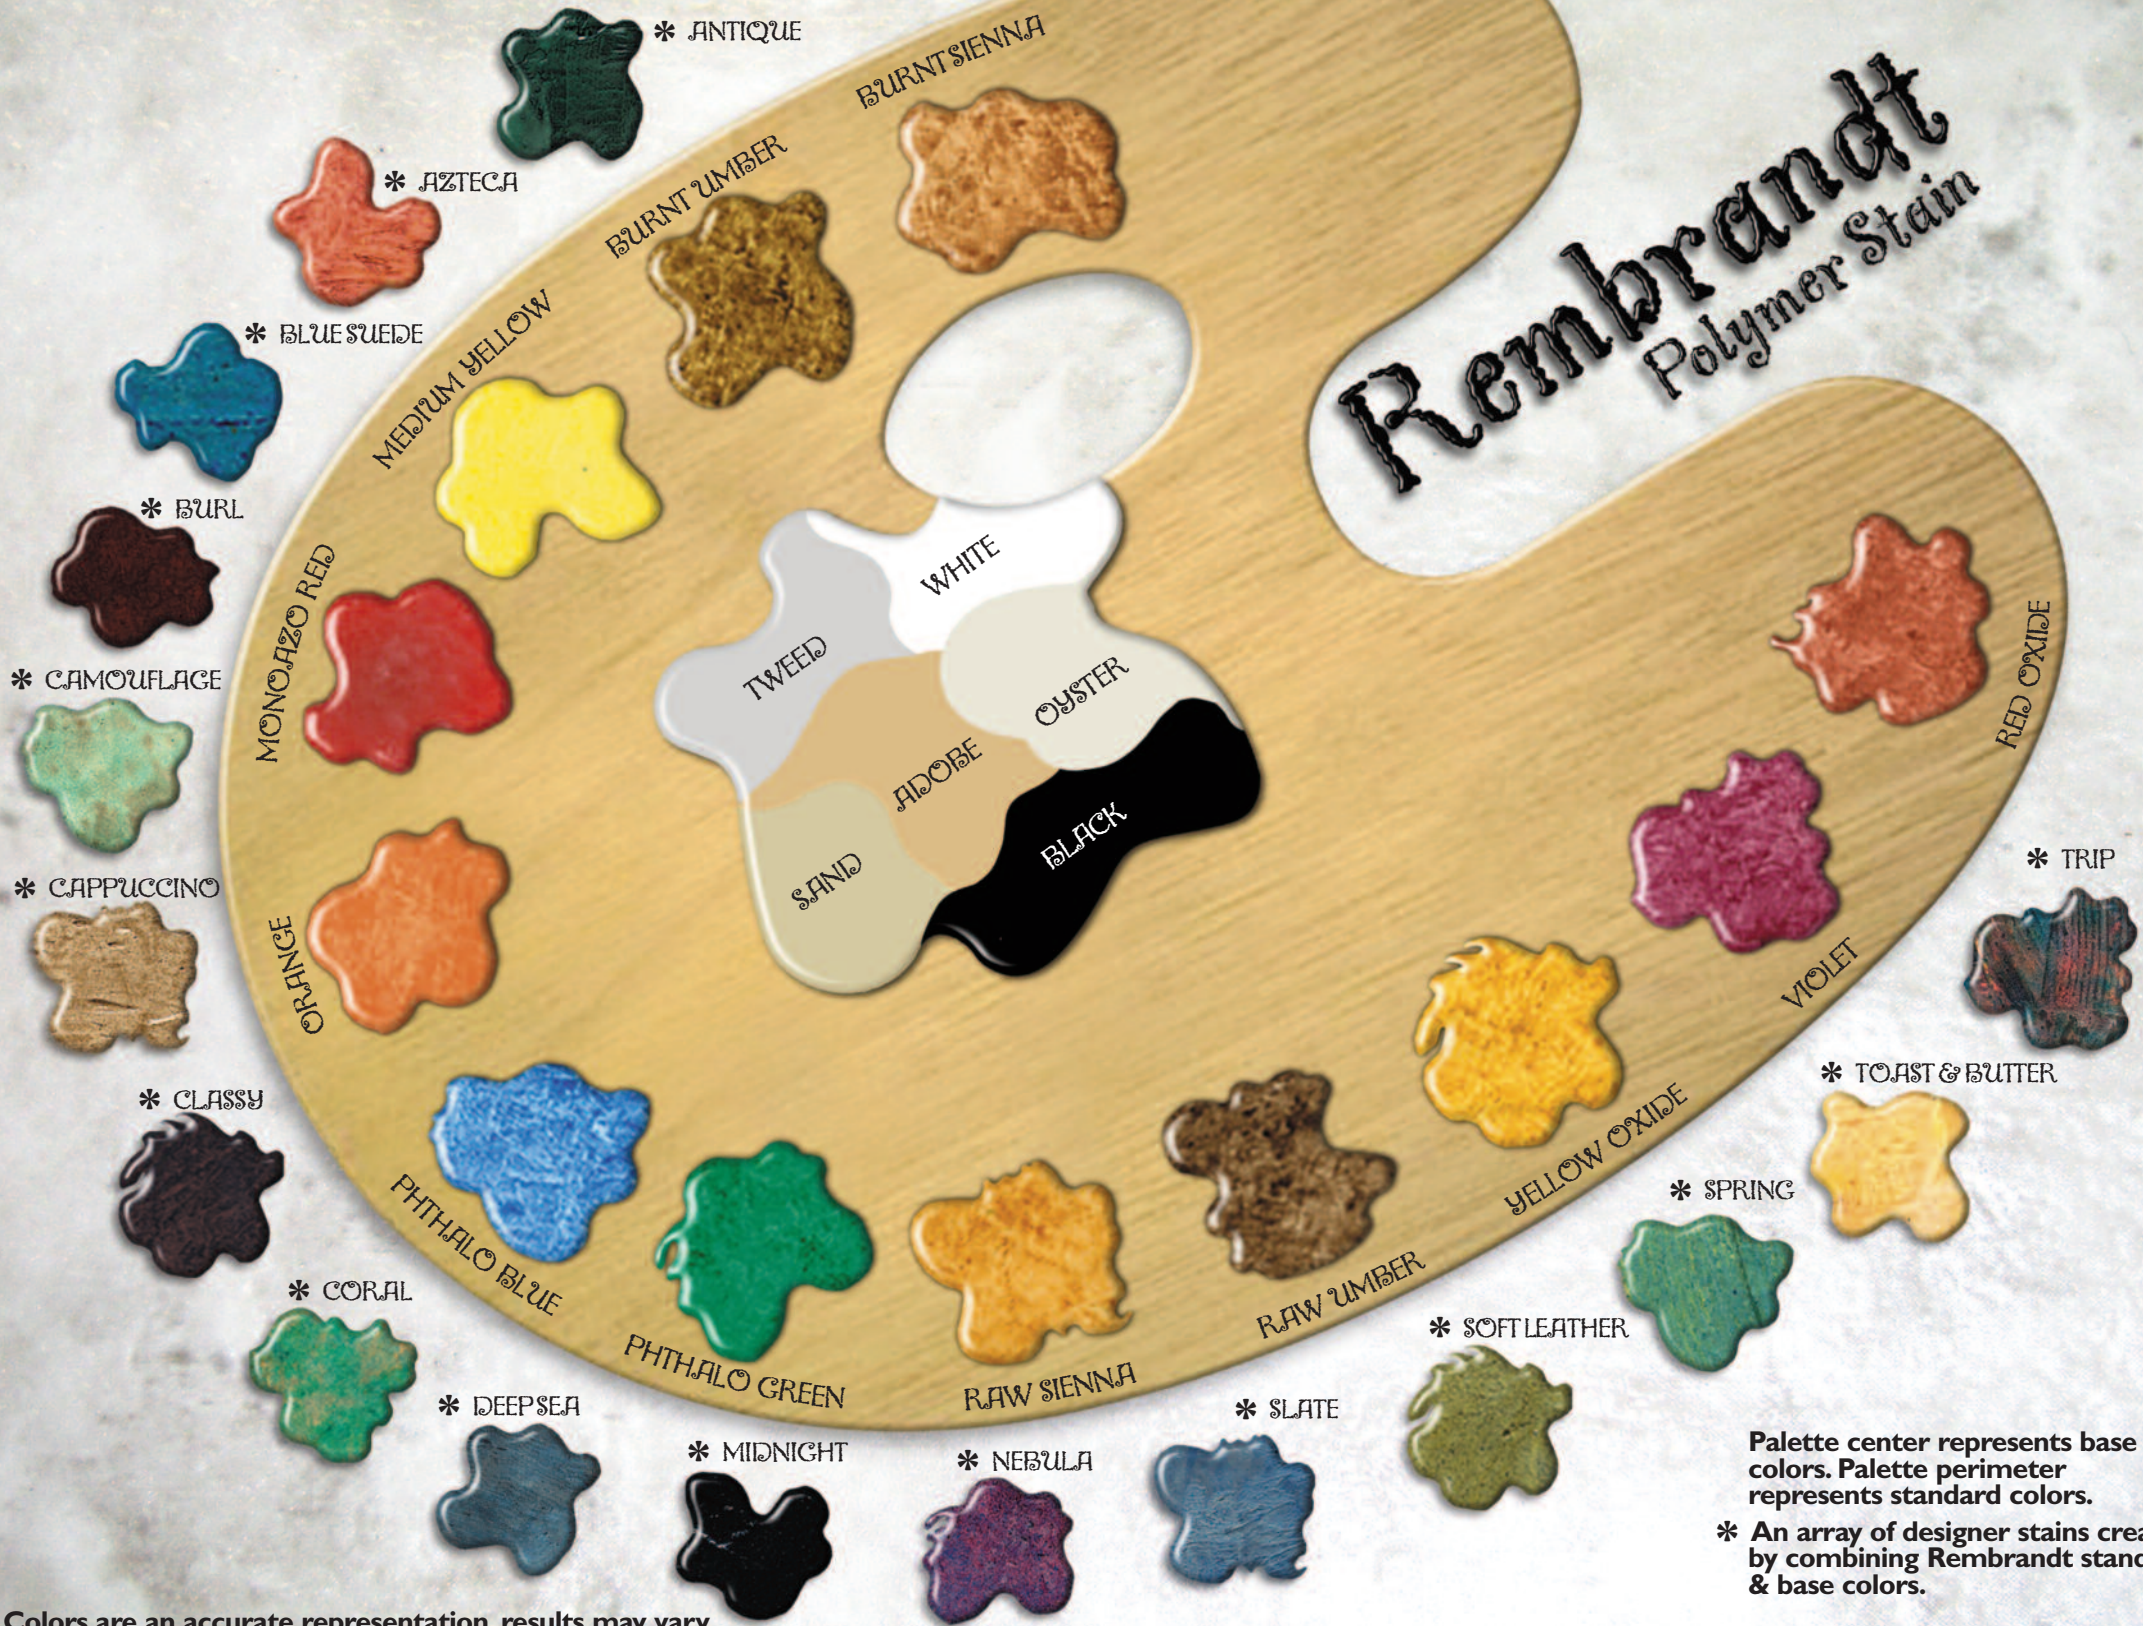

Rembrandt is a consumer friendly, easy to use, alternative decorative solution for concrete that cannot be prepared to receive Kemiko Stone Tone Acid stains.

Rembrandt, backed by 20 years of experience supplying the finest quality concrete stains, waxes and sealers, is a perfect addition to the Kemiko Product Line.
